Store your valuable bike information

VIN, Registration, Insurance, Service
Get reminders when they are due!

Track & Race Improvement Tools

Professional riders have ridden Australian racetracks at a range of different lap times with onboard 2D video and Datalogging.

Watch and compare your current lines and motorcycle actions against their videos. View a faster lap video and get a clear idea of what you need to change to reduce your own laptime - then get out there and achieve your next goal!

VR Videos of local tracks

Professional riders have ridden Australian racetracks with onboard VR video cameras, so you can Immerse yourself fully for spectacular visualization training!

Visualization training is used extensively by professional sportspeople - now you can use it for your advantage too!

**This App has been designed and made for your
enjoyment by Australian Motorcycle Riders!**
